Aspiring Software Engineer and AI/ML enthusiast with hands-on internship experience across generative AI, cloud deployment, and applied data science. Builds full-stack GenAI systems and cloud-deployed ML pipelines, with strong foundations in leadership and technical communication.

SKILLS SUMMARY

Languages & Frameworks: Python, C, Java, JavaScript, React.js, Node.js, HTML, CSS

Generative AI & ML: Stable Diffusion, CLIP, ControlNet, LoRA, FastAPI, Celery, Gradio, RAG Pipelines

Data Science & ML: Pandas, NumPy, Scikit-Learn, TensorFlow, Matplotlib, Seaborn, Data Analytics

Cloud & DevOps: AWS, IBM Cloud, Docker, Kubernetes, Vercel, GitHub, MLOps

Core Strengths: Leadership, Problem-Solving, Teamwork, Technical Communication, Project Management

EDUCATION

OP Jindal University, Raigarh, Chhattisgarh | CGPA: 9.4

B.Tech in Computer Science & Engineering (AI & ML) | Sep 2023 – May 2027

SAGES, Khamahriya, Bhilai, Chhattisgarh

Post-Matriculation (PCM) | Jun 2021 – Apr 2023

EXPERIENCE

ML & AI Intern — Aarivya Labs × H&P Projects | Remote · 8 Weeks

- Led end-to-end development of StlyGen, an AI-powered fashion design assistant
- Built full-stack GenAI pipeline (Stable Diffusion, ControlNet, LoRA fine-tuning) with FastAPI/Celery backend and React frontend deployed on Vercel
- Shipped Sketch2Design, StyleMixer, and WardrobeGen modules, optimizing inference latency to under 2 seconds

GenAI & Cloud Intern — IBM SkillsBuild × Bharat Cares | Remote · 6 Weeks

- Completed structured masterclass covering prompt engineering, cloud architecture, and AI deployment
- Deployed ML models on AWS EC2 and Cloud
- Optimized cloud infrastructure configurations for ML workload performance

Vocational Trainee — Bhilai Steel Plant (INCOS) | Bhilai, Chhattisgarh

- Gained hands-on exposure to industrial control and monitoring systems (INCOS) in integrated steel manufacturing
- Studied live sensor networks, digital quality measurement systems, and production workflow optimization

Data Science & AI Intern — Coding Samurai | Remote

- Delivered end-to-end ML workflows for customer churn prediction, handwritten digit recognition, and flower classification
- Trained and evaluated ensemble models (Logistic Regression, Random Forest) with structured evaluation pipelines

PROJECTS

StlyGen – AI-Powered Fashion Design Assistant

- Full-stack GenAI system combining Stable Diffusion, CLIP, ControlNet, and LoRA fine-tuning for sketch-to-design conversion, style blending, and outfit recommendations
- Tech: React.js, FastAPI, Celery, PostgreSQL, Vercel | GitHub & Live Demo linked on profile

Real-Time Facial Expression And gesture Recognition System

- Deep learning system detecting facial expressions and emotions from images and live webcam feed in real time
- Tech: TensorFlow, OpenCV, Python

Automated Current Affairs & News Summarization

- ML system that extracts and summarizes news articles from URLs for rapid information consumption

Daily Routine Management Application

- Full-featured productivity app for task scheduling, reminders, and progress/time-management tracking

Road Accident Detection & Alert Sending Application To Police and Ambulance

- Tech- Google Colab, TensorFlow, Keras, CNN, OpenCV, NumPy, Pandas, Matplotlib, Scikit-learn, Grad-CAM, UCF-Crime RoadAccidents Dataset, Deep Learning, Computer Vision

ACHIEVEMENTS

Semifinalist – ET Hackathon 2025 • Semifinalist – Smart India Hackathon 2024, 2025 • BECT Scholarship • NTSE District-Level Qualifier • School Topper & Class Captain • LIC Best Student of the Year

CERTIFICATIONS

Data Analytics Essentials (Cisco) • AI Fundamentals (1Stop) • Internet of Things – Silver Medal (NPTEL) • Excellence in AI (IBM SkillsBuild) • AI Tools Workshop (be10x)

HOBBIES : Playing Badminton, Consuming Educational & Informative Content, Jogging, Practicing Yoga
